

## Nathalie Landry

Executive Vice President,  
Scientific and Medical Affairs

Nathalie Landry is a dynamic biotech leader with more than 25 years of experience leading teams and programs to successful milestones. At Medicago, she oversees a multidisciplinary team in charge of research and development (R&D), product development, analytical development, process development, preclinical and clinical development, as well as pharmacovigilance, scientific and medical affairs.

Nathalie represents Medicago at numerous international conferences and meetings, and is the co-author of several scientific publications and patents. She joined Medicago in 2000 as Director of Strategic Development and later became Senior Director of Product Development. In 2007, she was named Vice President of Scientific & Medical Affairs.

Prior to joining Medicago she worked for a start-up biotech company developing and producing anticancer compounds. Nathalie earned a Master's degree in microbiology-immunology in 1989 and an MBA in 1997, both from Laval University.
